How well has the course met your learning needs?							✓
Comments: Excellent - a lot to learn!							
Was the information presented well and clearly?							✓
Comments: Very clear & could ask questions without feeling stupid							
Do you feel the weekend provided value for money?							✓
Comments: Extremely good							
Is the balance between PowerPoint learning & practical hands on about right given that you do have to learn the boring bits?							✓
Comments: Great photos							

What do you need next? (Apart from some bees) – e.g. a mentor, a more advanced course or learning day?

A mentor.

What are your thoughts about the Friday evening? We have used the same format here as the residential courses we run but of course you have had to come each day. We felt the Friday would offer a social event and allow people to settle in before a fairly packed weekend. Was it useful or did it feel unnecessary?

Very important for 'bonding' and getting to know other course members (Good crowd on this course....)

What did you enjoy most?

All of it... exceeded all expectations.

What do you need next? (Apart from some bees) – e.g. a mentor, a more advanced course or learning day?

Build the stand. Start one population in one hive. - Join Bee Club.

What are your thoughts about evening work? BeeEd usually start their courses on a Friday evening to offer a social event with a talk about bees and a honey tasting. This allows people to settle in and meet before a fairly packed weekend & we get very positive feedback. Would this be useful and add value to the course for you?

Yes.

What did you enjoy most?

Practical - teaching apians.
